PENOBSCOT, ss. WHITING S. CLARK, of Bangor, in Penobscot County, vs. ALVAH N. HAM, of Dexter, in said County, now residing beyond the limits of this State.

In a plea of the case, for that the said Defendant at said Bangor, to wit: at Mobile, Alabama, on the 24th day of April, 1871, by his promissory note of that date, by him subscribed, for value received, promised A. E. Buck, to pay him or order the sum of two hundred dollars six months from date, and the said A. E. Buck, thereafterwards, to wit: on the same day, endorsed and delivered the said note to the plaintiff, by reason and in consideration whereof the said defendant became liable and promised the plaintiff to pay him the contents of said note, according to the tenor thereof.

Also, for that the said defendant, at said Bangor, to wit: at Mobile, Alabama, on the 20th day of January, 1871, by his promissory note of that date, by him subscribed, promised to pay to the order of C. Crumpton, the sum of one hundred and fifty-four dollars and seventy five cents, thirty days after date for value received, negotiable and payable at Mobile Bank, and said Defendant thereafterwards, on the first day of March, 1871, paid to said Crumpton the sum of fifty dollars, and on the 13th day of March, 1871 said defendant paid to said Crumpton the sum of five dollars, both said sums in part payment of said note and said Crumpton thereafterwards, on the same day endorsed the said note, and thereby appointed the residue of the sum of money specified in said note, then and still unpaid, to be paid to the plaintiff, whereof the said defendant thereafterwards on the same day had notice, and thereby became liable, and in consideration thereof, then and there promised the plaintiff to pay him the residue of the said sum according to the tenor of the said note, and the effect of said indorsements so made thereon as aforesaid, to the damage of the Plaintiff, as he says, the sum of six hundred dollars.

Writ dated March 24th, 1873, and returnable to the Supreme Judicial Court, Penobscot County, October Term, 1873.

OFFICERS' RETURN.

PENOBSCOT, ss. April 2d, A. D. 1873. At 11 o'clock and 55 minutes in the forenoon, by virtue of this writ I have attached, as the property of the within named defendant all the real estate he owns, also all the right title and interest he has to all real estate in said County of Penobscot, and within five days thereafter, have filed an attested copy of my return on this writ, so far as relates to the attachment, in the office of the Register of Deeds for this County, together with the names of the parties in this writ, with the value of the defendant's property, which I am hereby commanded to attach, the date of said writ, and the Court to which the same is returnable. G. S. BEAN, Deputy Sheriff.

OBTAINS AND FOREIGN PATENTS,

R. H. EDDY

SOLICITOR OF PATENTS

For Inventions, Trade Marks or Designs

No. 76 State Street, opposite Kilby Street, Boston

After an extensive practice of upwards of thirty years continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents executed on reasonable terms with despatch. Researches made to determine the validity and utility of Patents of Inventions ... and all other advice rendered on all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part leads me to recommend ALL inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges." JOHN TAGGART. Boston Jan 1 187.

Prospectus for 1874.

Seventh Year.

The Aldine,

An Illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste

Not for Sale in Book or News Stores.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and then, there are the chromos, besides!*

ART DEPARTMENT, 1874.

The illustrations of THE ALDINE have won a world wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained. The common prejudice in favor of "steel plates" is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The wood cuts of THE ALDINE possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which THE ALDINE is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscriber to THE ALDINE will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thomas Moran and J. D. Woodward.

The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists and will surpass in attractions any of its predecessors.

PREMIUM FOR 1874.

Every subscriber to THE ALDINE for the year 1874 will receive a pair of chromos. The original pictures were painted in oil for the publishers of THE ALDINE, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in the White Mountains New Hampshire, the other gives The Cliffs of Green River Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates and are in size (12x16) and appearance exact facsimiles of the originals. The presentation of a worthy example of America's greatest landscape painter to the subscriber's of THE ALDINE was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial over the signature of Mr. Moran himself.

NEWARK, N. J., Sept. 20th, 1873.

MESSRS. JAMES SUTTON & CO. Gentlemen—I am delighted with the proofs in color of your chromos. They are wonderfully successful representations by mechanical process of the original paintings. Very respectfully, (Signed,) THOS MORAN

TIMBER, COAL AND IRON LANDS FOR SALE.

We have for sale several large tracts of land, aggregating above 150,000 acres lying in the States of Tennessee and Kentucky contiguous to the dividing State line, and beginning a few miles west of Cumberland Gap. These Lands are covered with a large and virgin growth of the best quality of Timber trees, consisting of Oak, Chestnut, Pine, Poplar (Lyriodendron) and Walnut. They abound in Carbonates, Hematites and Fossil Iron ores, and being in the heart of the southern prolongation of the great Allegheny coal field, are underlaid with seams of excellent quality of Bituminous and Cannel Coal, from three to six feet in thickness. They are drained by numerous streams through which timber can be run into the Cumberland, and thence into the Ohio river. They are also crossed by the lines of the Knoxville and Ohio Railroad, in process of construction, connecting Louisville and Knoxville, and also the Cincinnati Southern Railroad, connecting Cincinnati with Chattanooga and Knoxville, for the construction of which Cincinnati has appropriated ten million dollars of her city Bonds. By these railroads they will be brought within 175 to 200 miles of Cincinnati and Louisville. They will be sold at a very low price when regarded as timber lands only, while their great and ever increasing value as Coal and Iron lands will form an estate of untold wealth. The land will be sold together, or in separate parcels, as desirable. The title is derived directly from the State in which they lie, and is unquestionable. THE VIRGINIUS CASE
From the Boston Journal

There will be great need for some time to come of caution on the part of the public in regard to the rumors emanating from Washington respecting the Cuban complication. Already several gross misrepresentations of the action and position of the President have been published. There is a knot of agitators in New York who are directly interested in precipitating a war with Spain, and who hail the present excitement as a godsend to them. It is they who represent the excitement as ten times greater than it is. Unquestionably the American people are indignant at this new spectacle of Spanish barbarity, enacted with a cold blooded calculation to prevent the intervention of American authorities, and in disregard of our international rights. Such a course of defiance is to be stopped. But the Government is first going to make sure of its facts and then to proceed with strict, unvarying regard to international law. In the first instance in seeking remedies, we know nothing of the colony of Cuba, we deal with the responsible Government of Spain. We demand and we must have reparation. What it will be what we shall do in case Spain is unwilling or unable to grant it opens a field of inquiry which the future alone can fill up. Much depends upon the facts of the capture and the executions which have not yet been made clear, and much also will depend upon the spirit of the Spanish Government. If it proves to be rightly disposed our Government will be as considerate as is consistent with justice for the reason that the victims were probably engaged in an enterprise not approved by our Government and hostile to him ... NEWSPAPER ADVISERS

It is amusing to observe how newspaper writers who are most clamorous and warlike when there seems to be no danger in goading and abusing the Administration suddenly become calm and conservative when matters begin to ... The N Y World and ... furnish ... examples of this class ... have constantly assailed the President and Secretary Fish for pursuing a "cowardly policy" towards Spain, and both ... been ... their demands for a more belligerent attitude. With a few days both have entirely changed their tune and are now calling as loudly for ... "diplomacy" rather than the sword. We copy the following extract from the ... of Saturday last:

West ... influence ... free confederation of the West Indies under the protection of the United States is necessary. (But it is useless to attempt to ignore the inevitable course of things. The insane and blood thirsty conduct of the Spaniards of Cuba has forced upon the United States an intervention which once begun will never end until Cuba is a part of Union. The story of its annexation will be no ... The massacre of Cubans at Santiago will be followed at no distant day by the massacre of Spaniards where the Cubans have the necessary num... These ardent journals which are crying out so ... for bloodshed will have enough of it before the contest is over. The only necessary comment on the above and ... remarkable contrast with former articles in the same paper is that newspaper writers in arraigning public officers and attempting to influence public policy, act under a very different responsibility from that of the President of the United States, who is likely to bitterly denounced by the same journals for measures which they had previously demanded, and who is accountable to the whole country for the prudent discharge of his important trusts.

The President has permitted the statement to be made public that in his conferences with Mr Fish during the four years of Cuban war conferences which have been frequently prolonged anxious and unreserved, there has always been between them the utmost harmony as to what has been done, and that nothing has been done which did not command the President's approval. Secretary Fish having had his attention called to this statement, said it was true in the minutest particular, and that there has never been and is not now the slightest shade of difference of opinion between himself and the President on the Cuban question.

New York Cubans think the report that the engineer and several firemen of the Virginius were set at liberty indicates treachery on their part. The Virginius is alleged to have been a much faster vessel than the Tornado and it is intimated that the engineers of the former treacherously permitted her capture.

A New York despatch says that Gen. Belknap Secretary of War, who was in that city Saturday, is reported to have said to an intimate friend who called on him: "You are aware that I have been considered somewhat blood thirsty on this matter, but the entire cabinet are now of my mind. At the Cabinet meeting held Friday we were a unit, and if the American people are not satisfied with the measures resolved upon at the meeting to vindicate the national honor, they must be very hard to please."

A Washington despatch reports Senator Sherman as saying that notwithstanding the demands of the South and West for an increase of currency, there will be no inflation unless war should render it necessary.

A pretentious correspondent at Washington commences a letter by stating that he cannot write any news without betraying cabinet secrets. Please don't.

The New York dailies are doing a lively "blood and thunder" business in the Cuban matter. Keep cool, gentlemen, don't make yourselves ridiculous.—Boston Journal.

TWO OF THE VIRGINIUS VICTIMS. An exchange states that Gen Ryan, shot at Santiago de Cuba has a mother and sister living in Chicago, and a brother—P B Ryan—living in Joliet Ill. His mother's second husband is named Dunn, and he is a gardener. Gen Ryan was born in Toronto, Canada, in March, 1843. There is another brother, Colonel John G Ryan living in Pine Bluff, Ark. He served in the rebel army, and was once arrested and charged with complicity in the conspiracy of John H Surratt. The relatives of General Ryan are taking measures to obtain his remains from the Spanish authorities for interment in Chicago.

A report in the N Y Tribune states that Capt Joseph Fry, commander of the Virginius was a son of Major Fry of the United States Army, who died in Florida during the Seminole Indian war. Young Fry was appointed a midshipman in the navy in 1841 and after the formation of the school at Annapolis studied there for nearly a year, and was graduated a passed midshipman. He married the daughter of Capt. Sands of the United States Army. In 1847 Fry fought a duel with midshipman Brown of Mississippi near Washington, but after drawing his antagonist's fire generously refused to return it. He served for 20 years in the American Navy and his record during that time is a good one. When Louisiana his native State, seceded he threw up his lieutenant's commission and went South. He was given a command in the rebel army, then navy not being sufficiently large to furnish commissions to all the naval officers who seceded and served during the war in the South West. He is charged with having allowed his command on one occasion to fire on our sailors, who had leaped overboard to escape the scalding water and steam from the boiler, which had been penetrated by a Rebel shot. This is denied by Capt. Fry's friends. All agree that he was a brave man.

The attention of Mr. Fish having been called to reports that the State Department was endeavoring to show that the Virginius was captured in British waters Mr Fish said earnestly: "I do not believe that the Virginius was captured within three miles of Jamaica; but if she was it would make no difference with this Government. The United States does not propose to put Great Britain between us and Cuba in this matter. One circumstance which strengthens the conviction that the capture was near but not within British waters is the fact that the shore of Jamaica which the vessel would naturally have approached, is a high bluff that can be seen for ten miles and while the night of October was clear and moonlight and the Tornado saw the Virginius during the whole evening there is no mention made in any of the reports that the shores of Jamaica were within sight.—Washington special.

PHILADELPHIA NAVY YARD. Seven hundred men, the full force of the Philadelphia Navy Yard, were at work Sunday on the Monitors Manhattan and Ajax and steamer Canandaigua. They worked from 7.30 A. M. until 5 P. M. The Manhattan was to go into commission Monday and the Ajax was to have her turret placed the same day. The Pinta, a large tug, is being made ready as a despatch boat, it is said to run between Key West and Havana. There are being put on board four nine inch pivot guns. The Powhattan and Monongahela are expected daily from New York. The former will act as convoy to the Manhattan. In the latter vessel workmen are engaged in placing torpedoes and bombs. Hundreds of people were around the Navy Yard all day discussing the situation.

THE LONDON PRESS ON THE CUBAN CASE. The London Times of Monday, in a leading editorial says that if the Virginius affair had occurred during the ascendancy of the Democratic party Cuba would doubtless have been immediately annexed. It draws a contrast between the conduct of the Spaniards in Cuba and the lenient treatment by the American Government of foreign blockade runners during the rebellion. It says if England is called upon to act in consequence of the execution of any of her own subjects there is no reason why she should not acknowledge the independence of Cuba, especially if the act would check such outrages. It recommends the adoption of that line of policy by the United States.

The Daily Telegraph contains articles similar in tone. Both journals concur in the opinion that Spain is powerless to enforce reparation and that the United States may possibly be compelled to interfere even though reluctant to do so.

The Boston Advertiser's Washington correspondent says the position taken by our Government in regard to the Virginius case in its despatches to Madrid is that since the Virginius carried American papers altogether regular in form, and was sailing under the American flag, it was an act of gross discourtesy if not a positive insult, to try all on board and proceed with their execution in such a summary manner not only without any notice to the United States, but by so controlling the telegraph lines that no orders preventing the executions could be received. It is believed here that the United States has demanded that this Government shall be made a party to the trials of the prisoners still unexecuted and to passing upon the status of the Virginius and we further insist that the conduct of those ordering executions shall be immediately investigated by the Spanish Government.

A PRIVATE TELEGRAM DIVULGED BY OPERATORS. The details of a breach of trust on the part of Western Union telegraph operators, which is stated to be the first on record, are given in Journal of the Telegraph. An important private political despatch sent from Omaha to Denver on the 14th ult., was printed in the Omaha Bee on that day, during the progress of a local election. An investigation being had, it was discovered the A C Barker an operator, had delivered the message to E Rosewater editor of the Bee, with the knowledge of W D Hinton, another operator, who afterwards divulged the answer to the despatch. As no law exists there under which either the operators or Rosewater could be prosecuted, the company were obliged to content themselves with the summary dismissal of the two men and the announcement that they would never again be employed by the Western Union Telegraph Company.

A NEW TEMPERANCE MOVEMENT. There is sense as well as novelty in a movement recently set afoot by London temperance societies. A petition is being prepared for presentation at the next session of Parliament, praying that licensed inn keepers may be compelled to supply customers with tea and coffee when required, the ground taken being that many persons take intoxicating liquors when they would prefer less harmful beverages. There are numbers of coffee-houses in London, but as a general thing the tea and coffee sold are so poor, according to the advocates of this movement, there are few who will drink them, while, on the other hand, when inn keepers have tea and coffee for sale they are uniformly of a good quality. Then the coffee houses are not to be found excepting on main streets, the inns abounding in the by ways. Of course there are many arguments pro and con, but as the English laws affect to govern all places of public resort with a view to the accommodation and protection of the general public, the weight of argument is on the side of those the success of whose movement, will render inns, which are regarded as necessities, one degree more useful than they are.

The Italian Parliament was opened on Saturday by Victor Emmanuel in person. In his speech he informs His Holiness that he must keep his own side of the house. His liberty and religion will be respected, but the Pope must not interfere in State matters.

PENOBSCOT MUSICAL ASSOCIATION.

THE TWENTY SIXTH ANNUAL SESSION of this Association will be held
At CITY HALL, in Bangor,
Commencing on TUESDAY November 18th at 9 o clock A. M., and closing on FRIDAY EVENING, November 21st
under the direction of
Prof. GEO. F. ROOT, of Chicago.

**The Hall has been refitted and will present a very attractive appearance.
Tickets of membership, one dollar. Single admissions during the sessions, 5 cents. To the closing Concert, 50 cents. Tickets to be procured of the Secretary or at the door of the Hall.
Books for the use of the Convention, free. Church Music Glee and Chorus practice Vocal Drill, Solo and Quartette Singing. Forenoon afternoon and evening session each day.
Each membership ticket purchased will entitle its owner to a copy of the Joy,—the new Book to be used. This will enable the singers to become more familiar with the music to be practiced by having it with them to look over out of the Convention and will also help to carry the good effects of the work home with them after the Convention is over.
That the Social Hour may present variety and interest all who will take part in individual performances are requested to come prepared, and report early that their pieces may be properly placed. Report or send word to the Conductor or Committee Social Hour every afternoon.
It is believed that the decision to have this year a convention for musical enjoyment and thorough drill instead of a series of performances, will meet the approval of a large number of the teachers, choristers and singers of this part of the State.
Of our Conductor we need not speak. He has always been cordially welcomed among us and won the commendation of all. We believe we have the right man in the right place—one who will give us new music and new practical ideas that we can carry into our teaching our choirs and our homes.
Free return tickets to those coming by rail road or steamboat. Persons wishing to secure boarding places will please apply early by mail, to Mr B F Bradbury, Bangor, or engage them through their friends.

FROM BELFAST.

THE GORDON MURDER TRIAL.

BELFAST, Nov. 17.

In the Gordon case Mr. McClellan commenced his argument for the prisoner this forenoon and had not concluded when the Court adjourned at noon. He enlarged upon the insufficiency of the motive on the part of the accused; that the circumstances surrounding him were exaggerated, and that nothing in his conduct at the time of and since the murder indicated his guilt. He contended that not a single fact proved by the Government brings the crime home to him.

FROM BATH

DROWNED

BATH, Nov. 17.

Joseph A. Chambers, about 55 years of age, of Boothbay, was knocked overboard from a schooner yesterday near Goose Rock in the Sheepscott river and drowned. He leaves a family.

ARGUMENTS FOR THE DEFENCE CONCLUDED.

McClellan concluded his argument in defence of Gordon at 4 o'clock this afternoon, when at the suggestion of the Attorney General the court adjourned until Tuesday morning.

THE LAST BUTCHERY CONFIRMED—FIFTY-SEVEN MORE VICTIMS.

NEW YORK, Nov. 17. The World's Washington despatch says that an official confirmation was received to-night (Sunday) by the Government, of the execution of 57 more of the Virginius prisoners on the 13th inst., of whom 7 were British subjects. The British Legation is in receipt of the same intelligence.

DEMAND FOR THE ENFORCEMENT OF SPANISH DECREES—THE MINISTER GIVEN TEN DAYS FOR A REPLY.

Washington despatches contain the following: In regard to the failure to execute decrees from Spain for the release of American estates in Cuba, Secretary Fish informed Admiral Polo, the Spanish Minister here, that Spain must give assurance that these decrees are obeyed by Thursday, the 27th inst. Admiral Polo asked if the United States would not wait for an answer until the Saturday following. The Secretary said "No", that the President intended to have his message finished by Thanksgiving day, and ready to submit to the Cabinet on Friday, which is the last day for the last regular meeting before Congress assembles. Admiral Polo was further informed that the President was anxious to be able to say to Congress that Spain had really acted in the matter instead of promising, and that in case she did not act, he should recommend that the United States hereafter assume the entire responsibility for the protection of the lives and property of her own citizens in Cuba.

ADMIRAL PORTER ON THE TWO NAVIES.

Admiral Porter who arrived yesterday morning was busy all day in drawing for use (when called upon) a statement showing the condition of the Spanish Navy. He says at present the Spanish Navy has 25 vessels, carrying 110 guns, 24 carrying 50 guns, and 22 carrying 582 guns. There are also 10 transports capable of carrying guns and 50 gunboats with one heavy gun each. Fifty-three of these vessels are stationed on the coast of Cuba, carrying 320 guns with 9,000 men all told. The Admiral thinks that with the present condition of our Navy we would not be able to compete successfully with the Spanish.

THE INSULT TO THE FLAG.

He said that the question now at issue between the United States and Spain, was that respecting the insult to our flag. The Virginius was sailing under regular papers. She had got into waters other than those of the United States, and was captured. It was the duty of the Spanish Government to have held her for trial. If she had violated any law this Government was the proper one to punish her for it.

POPULAR EXCITEMENT AND OFFICIAL RESPONSIBILITY.

He was not conversant with the views of the Administration on this question, as no member of the Cabinet had conversed with him since his arrival. He remarked in regard to the excited feeling among the people that it was not easy for our Government to readily respond to their views. The Government had responsibilities which the people had not. If the people did not keep their faith with nations, the Government must. He thought that a resolution declaring war with Spain would be offered early next session.

MANY OF OUR IRON-CLADS USELESS.

It must not be supposed that the published list of 46 iron-clads is a truthful showing of the strength of our armored Navy. A large majority of the vessels on the list are totally useless for sea service, and could not even be made available for harbor defences. They have been rotting at our Navy Yards since 1865, and the Navy Department has never contemplated making any use of them except to break them up and sell them for old material.

GOSSIP.

Postmaster-General Creswell said in an interview in Washington that the massacre had settled the fate of Cuba.

Ex-President Johnson thought that Cuba would be annexed to the United States.

REPORT OF OUR CONSUL AT KINGSTON—HIS EFFORTS TO DISSUADE THE EXPEDITION—IN VAIN.

Ex-U. S. Consul Pearne, who has just arrived at Washington from Kingston, says that when Capt. Fry arrived there, to take command of the Virginius, he twice sought him and endeavored to persuade him to abandon the proposed expedition, remarking that he would surely be shot if captured, and that every man on the ship took his life in his hand.

To these protests Capt. Fry replied that the Spaniards could not shoot him, and that it would only be a case of blockade running, and as he had been a Confederate blockade-runner, he reasoned that as the U. S. did not shoot prisoners captured in this business, the Spaniards would not.

DESERTIONS AMONG THE CREW—FRY DETERMINED TO TAKE THE HAZARD.

Pearne says about half the crew deserted when preparations began for loading and sailing. There were about a dozen Americans or Englishmen among the seamen shipped, and it is doubtful whether they all knew the character of the enterprise. Still, all the transactions were perfectly open and notorious. When he (Pearne) sought Capt. Fry the second time to dissuade him, the latter said that to him the whole matter was a question of bread to his family. If he could succeed in landing his cargo where it was wanted it would give him a large sum of money, and he was determined to make the attempt at all hazard.

REPORTED BRUTALITY IN THE EXECUTION OF RYAN AND VERONA.

ASPINWALL, Nov. 9. A despatch from Kingston of the 8th inst., reporting the capture of the Virginius and the execution of four prominent patriots, says: "It is rumored that Ryan and Verona not dying easily, a Spanish officer thrust a sword through Ryan's heart, and that a blood-thirsty mob severed the heads from their bodies, placed them on a pike and marched them through the city. The Virginius is reported sunk at St. Jago." There is great excitement here and in Panama, where Ryan was so well known. It is reported that the U. S. steamship Wyoming will sail to-morrow from Aspinwall for Santiago de Cuba.

FROM WASHINGTON—THE LATEST EXECUTIONS.

WASHINGTON, Nov. 17th. Secretary Fish had a long interview with the President this afternoon on Cuban affairs. The Secretary says he has no official confirmation of the report about the additional executions on the 12th inst., but information received from other sources leaves no doubt on his mind as to the fact.

SECRETARY FISH,

who brought his portfolio of documents on the Cuban question, was closeted with the President an hour to-day, and explained the present state of correspondence with the Spanish Government.

INTERVIEWS WITH THE PRESIDENT.

The President subsequently said to the writer of this article that it would now be improper to make the correspondence public because there were diplomatic usages and courtesies which it was necessary to observe, pending the controversy, but in due time the result would be announced.

WAITING FOR FACTS.

The Government, he said, had thus far acted on such facts as had reached it, and was engaged in collecting from all available sources further information concerning the capture of the Virginius and the particulars attending the revolting executions which followed that event. It is desirable that all information should be of such a character as would leave no doubt whatever as to its reliability. The propriety of this course was too evident to require explanation.

THE GOVERNMENT BEING CAREFUL

in what it may hereafter do to act upon facts and not upon assumptions and uninformed reports. It was essential that we should be prepared to maintain our position. The President said he had

CHANGED NONE OF HIS VIEWS

heretofore expressed by him concerning the events in Cuba, but had more than ever been confirmed in them by recent occurrences. He shared with the public their denunciation of the capture on the high seas of a vessel sailing with a regular clearance under the United States flag, and the startling events which so quickly followed. Spain never having considered the island of Cuba in a state of war and there being

NO PROCLAMATION BY THE UNITED STATES

according belligerent rights to the Insurgents, the Virginius, if regularly cleared for the island of Cuba, had a right to enter Havana or any other open port of the Spanish possessions. This Government did not recognize any right on the part of Spain in the present state of affairs, to interfere in any manner with our merchant ships upon the seas, except in the usual right in her own ports, within one marine league of the coast of any of her dominions, and of this fact she is aware.

CITIZENS TO BE PROTECTED.

As a matter of course it is the determination of this government to protect our citizens in all their rights and to compel respect to the flag. The present naval preparations were with this view, not to initiate war by the President, that power being vested in Congress, but to be

PREPARED FOR ALL POSSIBLE CONTINGENCIES.

Congress would meet in two weeks from to-day, when every thing in possession of the Executive Department relative to Cuban affairs would be laid before that body with such recommendations as the occasion might demand.

REPORT OF THE MASSACRE NOT CONFIRMED.

HAVANA, Nov. 17. The report received from Cienfuegos, that 57 more of the Virginius prisoners had been executed is not confirmed by later advices from Santiago.

The following despatch has been made public here:

Santiago de Cuba, Nov. 13th.

There have been no further developments. The man of war Isabella La Catolica has arrived here to convey the Virginius to Havana. The attitude of the authorities is unyielding; they insist on their perfect right to dispose of the Virginius as a pirate, according to international law, and that no one has a right to interfere with them. There have been

NO MORE EXECUTIONS,

but the trials are proceeding. The British man-of-war Arlobe is still here. It is reported that a correspondence is going on between her captain and Gov. Burriel about British and other foreign subjects captured on the Virginius.

NEW YORK CITY.

BEECHER'S APPEAL FOR FREE CUBA.

NEW YORK, Nov. 17.—Rev. Henry Ward Beecher in his sermon yesterday made a powerful appeal to the sympathies of the American people in favor of free Cuba. He denounced the executions at Santiago, as a crime against humanity and civilization, proceeding from a cruel love for blood, and a simple ferocity. He thought, however, that the Government should act thoughtfully and not rashly, and if Spain cannot stop such abominations let the hand of national justice fall not only upon the perpetrators but so as to give knowledge and freedom to those who deserved liberty and the help of every honest heart on the globe. Beecher's allusion to the heroic suffering of the Cubans elicited rounds of applause.

The clergy generally alluded in yesterday's sermons to the Cuban massacre.

THE BANKRUPT LAW.

Gen. Garfield, now in Washington says he looks for the immediate repeal of the bankruptcy law or at least the involuntary feature of it as the first measure of relief. The House repealed the law last session but the Senate did not take action. He says that the demand for the repeal in business circles is almost unanimous.

JAY COOKE'S LONDON HOUSE.

Hugh McCulloch, of Jay Cooke McCulloch & Co., London, sailed for England on Saturday. The present house will be dissolved at the end of the present year when McCulloch and his English juniors will continue business under new combinations.

THE REGULAR ARMY.

Capt. Wharton, of General Hancock's staff says that the force of regulars in the department of the East, which extends along the coast from Maine to Virginia, consists only of about 4,000 men. Three regiments of artillery and one of infantry.

THE BANKS.

The associated banks hold $28,380,000, an increase of $115,000 since Saturday.

THE TWEED TRIAL—THE GARVEYS.

Garvey testified to-day that he bought $140,000 worth of mortgages from his brother Andrew before the latter fled to Europe for $1 and gave him $10 for the remainder of his vast property. During January, 1872 he received several letters from Tweed, asking him to call at his house for an interview. One of them was produced in the court which was read as follows:

John Garvey, Esq.—I do not see why you fail to keep your engagements with me. You will please see me either at my house or some other place down town. The interview to you will be a pleasant one.

Yours,

WILLIAM M. TWEED.

DYING.

Though Mrs. Templeton, shot by her husband, is still living, it is believed that she will survive but a short time longer.

BANKRUPTCY PROCEEDINGS AGAINST JAY COOKE & CO.

John E. Fox & Co. of Philadelphia, have begun involuntary proceedings in the United States Circuit Court, in bankruptcy, in this city, against Jay Cooke & Co. Judge Blatchford has issued an order for Jay Cooke & Co. to show cause why the prayer of the petitioner should not be granted; and has also issued an order restraining them from parting with any of their assets until the question of adjudicating the firm involuntary bankrupts has been passed upon.

CAIRO, Nov. 17. There was a heavy thunder storm here last night which prostrated all the telegraph lines near this city. Light rains prevail this morning.

NEW YORK STATE

THE COHOES MILL.

COHOES, Nov. 17. The mills in this city did not resume operations this morning as was expected. The ruinous rates at which the goods are now being offered makes it impossible to produce them except at a sacrifice which would certainly lead to bankruptcy. No change can be looked for until there is a decided improvement in the market.

GREAT BRITAIN.

ARABS AND TURKS QUARRELING.

LONDON, Nov. 17. A special despatch from Aden to the Daily Telegraph says that that an encounter took place recently in the district of El Asha between bodies of Arabs and Turks, in which 300 of the former and 70 of the latter were killed and wounded. It is probable that in consequence of this occurrence the British force of Aden will interfere and prevent an encroachment by the Turks upon territory of the surrounding tribes.

SPAIN

PIELTAIN AND POLO.

MADRID, Nov. 17. General Pieltain, late Captain-General of Cuba, has arrived at Cadiz on his return from that Island. A report current here yesterday that Admiral Polo de Bernabe, the Spanish Minister at Washington, was to be superseded, is denied this morning.

THE ISTHMUS.

PANAMA QUIET.

PANAMA, Nov. 9. Quiet reigns in Panama. The relief to both city and suburbs is great, and peace seems now a possibility. The Government has issued a bulletin announcing a triumph of the troops sent in the Montijo to the interior of the State in pursuit of the rebels that fled from Compano. Many prisoners were taken; the principal leaders, however, escaped into the woods. Leaving part of the force to pursue the rebels and collect the arms, Col. Espinosa returned with the rest of the troops to Panama in the Montijo.

FILIBUSTERING STEAMER SEIZED.

The American filibustering steamer Gen'l Sherman entered the harbor of Aspinwall on the 3d instant, under the name of General Ariza, and was at once seized by Capt. Cushing of the U. S. steamer Wyoming for using illegal ship-papers and sailing under the flag of Honduras, while it is claimed that she is an American vessel. Her case will be decided by the U. S. Courts.

Length of Days,	9 40		9 47 PM

—Three vessels arrived yesterday and sixteen cleared.

—But few teams are fitting out for the woods up river.

—There was but one arrest yesterday for drunkenness.

—The sheer boom at Sunkhaze will be taken in this week.

—The boys complain that the snow has spoiled their skating.

—Snow commenced falling about one o'clock this morning.

—Cold weather again yesterday. Thermometer indicated 15° at 6 A. M.

—The Maine Central passenger train from the West was half an hour late last evening.

—One drunk and two penniless individuals found lodgings at the police station last night.

—Hon. S. L. Tilley, Governor of New Brunswick, was at the Bangor House last night.

—Country teams on the market yesterday were about equally divided between wheels and runners.

—The telegraph wires worked badly last night on account of the storm, which was very severe to the westward.

—The E. & N. A. up passenger train turned several sheep into mutton at Bunker's mill, near Winn, the other day.

—The carpenters have commenced to "board" at the new city building on Court street, though the roof is not yet on.

—Mr. Barton's lecture, "The Fair Eden," will be delivered in Music Hall on Dec. 16th, instead of the 5th, as first announced.

—The firm of O'Connor, Ward & Co., (Sylvester O'Connor, Michael Ward and R. B. Whitcomb,) of Brewer, has been dissolved.

—Mr. H. F. Dowst, for some time past station agent at Auburn, has accepted the agency at the Maine Central station in this city, tendered him some time since.

—The directors of the Penobscot Lumbering Association advertise for proposals to repair piers at the Penobscot boom and build new ones at Sunkhaze and Greenbush.

—The library of the Penobscot Musical Association, which is worth between $700 and $800, is to be placed in two handsome new cases which stand in the little room over the Alderman's room, City Hall.

—The Postmaster-General issued an order yesterday, reducing the registration fee on domestic letters and packages from fifteen to eight cents. This rule doesn't go into effect, however, until the first of January next.

—The sidewalks on the hilly streets (several of which may be found in this city) were very slippery yesterday, and the boys failed not to profit thereby, coasting wherever they found a chance, to the discomfort of pedestrians.

—The public buildings, stone sheds, shops, offices, boarding houses, furniture, tools, machinery, etc., belonging to the Government at the granite quarries at Dix Island, will be sold at auction at Rockland on Monday, Dec. 1st.

—The little sloop Victory, of Orrington, lying near the Maine Central depot, was crowded in-shore by the pressure of other vessels and the floating ice yesterday, and getting aground, sprung aleak and filled. She was loaded with lumber for Rockland.

—Wm. R. Ayer, Esq., of Lincoln, has planted three acres of land with white and red oak acorns. The land was forest land until within two years, since which time Mr. Ayer has burnt and cleared it, and now proposes to have an oak grove for his posterity.

—The first rehearsal of "Samson" by the Handel Association in City Hall, last night, was attended by about 75 singers, and the evening was very pleasantly and profitably spent. The rehearsals are conducted by Mr. F. S. Davenport, and Mrs. Davenport presides at the piano.

—We are informed that the project of fitting up some of the passenger cars with carpets and chairs, to take the place of the Pullman day cars on their road, has been abandoned by the E. & N. A. railway company, who now propose to have some new cars got up to order for this purpose.

—The Directors of the Bangor & Calais Shore Line Railroad Company announce elsewhere that they will petition the next Legislature for permission to build a railroad bridge over the Penobscot river, to connect with any railroad on the west side, at some point between the south line of Verona and the north line of Bucksport.

THANKS, NEIGHBOR. That lively sheet, the St. John *Tribune*, has our thanks for the following kindly notice:—

The Bangor *Whig* is a newsy morning daily that gives us later news than any other paper received by the Western train. Its despatches are voluminous and carefully edited.

THE WEEKLY COURIER, with supplement, published this morning, contains all the news of the past week, full account of the capture of the Virginius and the execution of its crew, report of the evidence at the Gordon trial, State and home news in extenso, a good story, interesting miscellany, poetry, market reports, etc., etc., etc. Copies in wrappers for mailing may be had at this office.

PROF. TRIPP completed his course of lectures at the State College and at Orono last Saturday evening. He is to begin a course in Oldtown on Thursday evening next under the auspices of Dr. Bradbury and a club of ladies and gentlemen; and he has accepted the invitation by the G. A. R. Post to deliver his lecture on "Lamartine" in Bucksport, on some evening previously to the 20th inst. The Professor goes to Washington, D. C., in December.

FIRE IN GARLAND. Our correspondent writes that Clark & Co.'s boot manufactory at Garland was discovered to be on fire about 2 o'clock Sunday afternoon, and the flames had made such headway that it was impossible to enter the building to save anything except the books of the firm. The building, together with all the machinery and tools, and fifty-six cases of boots, all ready for shipping, was entirely consumed. The total loss will reach about $6,000, on which there was very little insurance.

THE QUEEN CITY DRAMATIC ASSOCIATION announce elsewhere the programme for their entertainments next week, by which it will be seen that on Wednesday evening they play "Lucretia Borgia" and the comedy "Nicholas Flam," and on Thursday (Thanksgiving) evening, will repeat the [illegible] The members of the Association [illegible] citizens are well [illegible] talent; they have had these plays in rehearsal for a long time; their costumes will be furnished by a well known Boston firm; great pains have been taken to secure appropriate scenery, and no effort will be spared to make the entertainment first class in every respect. The proceeds will be donated to that noble charity, the Children's Home, and we hope our citizens will give the Association a liberal patronage. The sale of reserved seats will commence at Bugbee & Co.'s next Saturday.

CITY HALL has been so rejuvenated that the interior is hardly recognizable. A new hard pine floor has been laid, the platform has been enlarged, and is now reached by steps at both sides of the hall, instead of by the old broad stairs running clear across the the front. Double doors have been placed at the entrance of the ante-room near the stage, broad enough to admit the grand piano used by the musical associations, so as to have the instrument locked up when the hall is used for other purposes. For the benefit of the musical societies, extra platforms, removable at will, have been placed on and in front of the stage, so that six rows of settees, one above the other, may be placed for the singers. The ceiling has been whitened and the walls tinted a delicate green, and the gallery fronts and wood work have been tastefully painted in two shades—lavender and a very light drab. The settees have also been painted to correspond with the wood work, and everything looks fresh and clean.

PENOBSCOT MUSICAL ASSOCIATION. The twenty-sixth annual session of this association opens in City Hall at 10 o'clock this morning, and will continue until next Friday evening, when a closing concert will be given. Prof. Geo. F. Root, the well known director and composer, has been engaged to conduct the sessions, which will be held each forenoon, afternoon and evening during the continuance of the convention, and will be devoted to the practice of church, glee and chorus music, solo and quartette singing, etc. It is believed that the decision to have this year a convention for musical enjoyment and thorough drill, instead of a series of performances, will meet the approval of the teachers, choristers and singers of this part of the State, and the attendance promises to be unusually large. The tickets of membership are sold at one dollar each, and entitle the purchaser to a copy of the "Joy," the new book to be used. Free return tickets are granted to all coming by rail or steamer to attend the convention.

FIRE AT JACKSON BROOK. The extensive tanneries owned and run by F. Shaw & Brothers at Jackson Brook were totally destroyed by fire Sunday night, involving a total loss of nearly $100,000. Our informant was told by Mr. Shaw that there was no insurance on the buildings, and he was not aware of any on the leather in the loft, valued at nearly $50,000, though it might be that some of the Boston offices had risks on it. It is supposed that the fire was incendiary as a man who was at work in the drying room in the lower part of the tannery states that he smelled smoke in the night and went up the stairs, where he found that a pile of combustible material had been placed in one corner of the room and set on fire. This had communicated with the building and though the alarm was immediately raised it was not possible to save the property. The loss is a severe one, especially so at the present time.

Since the above was in type we learn upon good authority that there was no insurance on either buildings or stock.

AN ICE RUSH. The ice which has been forming in the river above the toll bridge during the past few days had, yesterday morning, embargoed business at the lumber docks, which were unusually full for this season of the year, and in order to get the rafts out it was necessary to call in the aid of the tugs Howell and Walter Ross to break away the barrier. These vessels worked busily during the forenoon and had cleared quite a large space, so that in the afternoon the Howell worked alone until between two and three o'clock, when the immense mass of ice extending far up the river began to move down and shot past the piers of the railroad bridge into the docks, carrying almost everything before it. The heavy hawsers, chains, etc., which held the rafts and booms, were snapped apart and a promiscuous body of ice, lumber and scows swept under the toll bridge with a crash that brought large numbers to the spot, expecting to see the bridge go down. Luckily a full force of men was in readiness below the bridge and the lumber as it came out into the clear channel was secured without much loss. The three heavy scows, with derricks, used in the construction of the railroad bridge piers, were carried under the toll bridge, and one of the booms stove a large hole through its side. The crew on one of the scows succeeded in taking the derrick down, but those on the other two were broken off.

The ice kept coming down the river for several hours, but after the first rush did not interfere materially with the work of taking care of the lumber. Several vessels lying just below the toll bridge came near parting their hawsers by the great pressure upon them, but the vigilance of the crews prevented any accident of moment. For a time it looked as if considerable quantities of boards, etc., would go down the river, as some of the rafts were torn to pieces and floated about in loose fragments, but the precautions taken by the owners prevented any loss of this kind.

CITY AFFAIRS

IN BOARD OF ALDERMEN,
Nov. 17, 1873.

Report of Special Committee on petition of John S. Ellison et al. for abatement of assessment for construction of sewer on Birch street—accepted; and order for abatement of 20 per cent. on all assessments for the construction of said sewer which shall be paid on or before Dec. 15th next—passed.

Alderman Blake with the present Committee on Sewers on part of this Board, were appointed a committee to report assessments to be made for sewers constructed the present year.

Aldermen Blake and Humphrey were appointed a committee to settle with the last City Treasurer all sewer collections made by him not heretofore settled.

Petition of John Works and others relative to use of schoolhouse in West Bangor for religious services, and communication of Schoolhouse Committee relative to same—referred to Committee on Public Schools.

Order for City Treasurer to notify all persons who have not paid their assessments for sewers constructed under the law of 1871, previous to the present year, to settle the same forthwith, and if not paid within thirty days to place the same in the hands of the City Solicitor for collection—passed.

[The Common Council was not in session.]

A Washington despatch says that in October, 1872, Secretary Fish, in writing to Gen. Sickles, complaining of the regulations for proceedings concerning sequestrated property in Cuba, and embargo or confiscation of property belonging to citizens of the United States on that island, instructed him to present the grievances, of which this Government so justly complained, to the Spanish Government, in a way which, without giving offence, will leave the conviction that the United States are in earnest in the expression of their views that they expect redress, and that, if it should not soon be afforded, Spain must not be surprised to find as the inevitable result of delay, a marked change in the feeling and in the temper of the people and of the Government of the United States. This change [illegible] [illegible] Virginius and the execution which so swiftly followed.

NEWS BREVITIES.

John Arnold, a leading banker of Elizabeth, N. J., died Sunday.

It is said Sir John Duke Coleridge will be elected to the English Peerage.

The light of the Haverhill fire was clearly seen reflected on the clouds at Lowell.

An order will shortly be issued for reducing the registration fee for domestic letters and packages to eight cents.

President Grant attended church with his mother in Elizabeth, Sunday and returned to Washington in the evening.

A valiant New Jersey militia Colonel has tendered his services and that of his men to the Governor for "the Cuban war."

Daniel Adams, aged 44 years, organist of the South 5th street Methodist church, Brooklyn, dropped dead while playing the organ during Sunday evening's service.

The Pacific Mail Co.'s steamship Colima, which left New York Oct. 1st, for San Francisco, put into Rio Janerio with her shaft broken and remained there on the 23d ult.

It is believed that Herman Krull, who attempted the murder of his wife at Elizabeth, N. J., on Wednesday night, has sailed for Liverpool. If so he will be arrested on arrival.

The conference between General Sickles and the Spanish Minister of Foreign Affairs will probably take place early this week and the result will be promptly reported to Secretary Fish by cable.

Nothing has yet been heard from the crew of the ship Richard Robinson, found abandoned and towed into Halifax. The rumor of a mutiny gains strength and several things about the vessel indicate that something was wrong. The vessel is now being discharged.

Joseph Farrady and a friend Charles Dodge, went to the theatre in San Francisco Friday night; went out to take a drink between acts, when Dodge became suddenly ill and died. Farrady seems to have thought he would be accused of poisoning his friend and blew his own brains out.

A meeting in the New York City Hall Park Saturday afternoon, to denounce the Cuban butcheries was called, and was addressed by one Thomas Dugan, who urged his hearers to demand reparation. No noteworthy Cubans were present, and only a limited number of others.

Friday night two negroes murdered Abraham Beam, an aged farmer living three miles from Middletown, Pa., while he was at work in his barn. Large numbers have started in pursuit of the fiends.

A San Francisco despatch states that on the 12th inst. two members of Vasquez's gang fired six shots into a sheep-herder's body and then cut his throat. One of them, named Chaves, was caught, tried by a lynch jury, and hanged.

Duncan T. Templeton, a civil engineer, attempted to kill his wife in New York, Saturday morning. Her injuries are not regarded as fatal. Domestic infelicity alleged as the cause.

A case of mistaken identity in Foxboro', Mass., the other day, put a man in peril of life imprisonment. Dennis McCarty was arrested in that town, charged with committing a felonious outrage upon the person of Mrs. Comfort O. Fisher. Upon his examination Mrs. Fisher testified to the circumstances and swore positively that McCarty was the guilty man. Undoubted proof that he was elsewhere at work at the time, alone saved Dennis from an unjust imprisonment.

AFFAIRS IN FRANCE. After an exciting session in the French Assembly on Saturday, a recess was taken to await the report of the "Prolongation Committee." On reassembling, M. Laboulaye read the report, which commences by showing the difficulties of prolonging President McMahon's powers without organic laws. "To do so," says the report, "would result in a more or less disguised Dictatorship, under the title of President of the Republic. France wants a settled Government, but it is impossible to grant President McMahon more than five years power." The report also proposed to so constitute the Republic that France may not become the prey of revolutions, and recommends the appointment of a committee of thirty to consider the Constitutional bills. It concludes by appealing to the Conservatives to help found a Republic, now that the schemes of monarchists have failed; otherwise the dissolution of the Assembly is inevitable. The discussion of the report was fixed for Monday, 17th. There was the greatest excitement over the conclusion, of the Committee.

THE GREAT FIRE IN HAVERHILL. The most destructive fire that has visited Haverhill, Mass., for many years, broke out about three o'clock Sunday morning in a large wooden building in the rear of Prescott's Block, on Washington street. Soon after the fire was discovered a barrel of shoemaker's cement exploded in the building, blowing out one side and scattering fire on the adjoining blocks. The fire then spread with great rapidity, despite the exertions of the firemen, and the flames were not stayed until five large blocks were destroyed, together with several smaller buildings in the rear. The principal blocks were owned by John P. Gilman, Sewell F. Prescott, George Green and J. B. Nichols. The insurance is small. The buildings were occupied by shoe manufacturers. The owners of the buildings estimate their loss at about one hundred thousand dollars, and the other losses will exceed one hundred thousand. The bodies of Amos George and Amos C. Heath have been recovered from the Gilman block, burned almost beyond recognition. The former was identified by his false teeth and the latter by a bunch of keys. They entered the building to save their property, and a moment after a high brick wall of an adjoining block fell, crushing the building and burying the unfortunate men.

ASTHMA. Commercial School, Harbor Grace, Newfoundland. Mr. James I. Fellows, Dear Sir: I am very happy to acknowledge the benefit I have received from the use of your Compound Syrup of Hypophosphites. For upwards of twelve months I suffered most acutely from a severe cough, a most violent Asthma, for the relief of which I tried everything I could hear of. I at last commenced the use of your Syrup, and after taking one bottle was able to attend to my avocation. I continued according to directions till I had used nine bottles, which effected a perfect cure. With much gratitude, yours truly, M. SCULLY, Teacher.

THE BOSTON FIRE,

did not kill

PRESIDENT GRANT,

Neither did it destroy the most appropriate

SEWING MACHINE ATTACHMENT

ever invented. This simple little machine, which is no less than

Wilder's New Bobbin Winder,

winds the thread on a bobbin without the use of a person's hands, as even as thread is wound on a spool by the manufacturers. This, as every lady knows, is a very important thing in order to get an even tension, and it is very hard to do without these machines, which not only save an abundance of time, but wind one-third more thread on a bobbin. The Attachment is confined to the machine in the same place as the old one, and the price is within the reach of all. Can be seen in operation at

"Sing? sunrise morning, how does it run?
I have it 'Night.' Short life; Fortycome-early flow, and I earlier, too.
Dead." Well, sergeant, hurry it through.

"Count." Of course. How's that's the need,
When every drop of the foes must bleed?
Forty-two! Ah! there any more?
I now half afraid I have would stop at four

"Of brothers. How his head went down!
An elder sister from bed to crown.
Each is, too, from his hut at need for—
Hush! on a comrade! On! End his pain!

"What now, Irish No, he won't serve
For any more that sing at Donnybrook fair.
Forgiving. They, mother, are of their
If that is not a traitor Spain dead

"Mother, my story—No I'm alive
Hold! I was Colonel! Well, forty-five
North—I—or mothers, who are such
Who welcome to his cell or hut?

"Forty-six. That fellow's afraid
But just one to the grave at his heart he made.
A picture! Ah! And he took it through
The very face still—spoiled it, too.

"Forty-seven. I'm sure that's right,
Wait till I get my cigar alight.
This will be some time if well I saw away
Those bloodless fumers for many a day.

To the Honorable Justices of the supreme Judicial Court, next to be holden at Bangor within and for the County of Penobscot, on the first Tuesday of October.

Respectfully represents Hiram Rich, guardian of Thomas Rich, formerly of Bangor in said County, but now of Boston in the State of Massachusetts, that he was duly appointed guardian of said Thomas Rich by the Judge of Probate for said County of Penobscot, on the 2nd day of October, A. D. 1860, and has ever since been and still is the guardian of said Thomas Rich; that said Thomas Rich is seized and possessed of the following described real estate, situated in said Bangor, to wit: [description] and that said Thomas Rich is also seized and possessed of personal estate to the amount of about [illegible] dollars.

That said Thomas Rich is now a minor, and has a wife and [illegible] children, and that his said wife and children are now residing in said Bangor, and are dependent upon him for support.

That said Thomas Rich is now under the influence of intoxicating liquors, and has been for a long time past, and is now wasting his property, and unless he is restrained from so doing he will soon become destitute of property, and his said wife and children will become a charge upon the public
